

REDS

2024 Mount Moriac Pinot Noir

Pinot Noir makes up nearly 50% of our vineyard. The 2024 vintage was picked from across our 5 blocks of Pinot Noir and represents 4 different Pinot Noir clones and our two distinct soil profiles. 2024 was a warmer year & has produced a rich, full (for Pinot Noir) style. Our 2024 Single Vineyard Pinot Noir has a bouquet of cherry with hints of earth & spice. The palate carries the savoury complex characters of forest floor & cedar to enhance bright red fruit flavours. The wine has a soft & round mouthfeel and will do well with up to 5 years of cellaring.

2023 Mount Moriac Shiraz

Shiraz grown in cool climate conditions produces lovely soft, medium weight styles that are so drinkable & our 2023 exemplifies this. After 10 months in older French barrels we have a shiraz that is more in the Syrah style. The nose abounds with white pepper and dark berries and the palate is soft, round but still racy from the front to the back of your mouth. Just a little bit Moorish.
